About This Content

Fly the most produced aircraft of the Piper company, the PA-28RT-201 Arrow IV. The cockpit is accurate and fully equipped with the performance being as realistic as possible. Originally rebuilt aircraft models with an unbelievable visual quality, a true highlight for every light aircraft pilot.

The Carenado line of aircraft for FSX: Steam Edition has been well acclaimed by players and reviewers for many years and for good reason. They are well constructed, look exceptionally good and have impeccable behaviour in flight.

Mugen Souls feels like a mix between Neptunia and Disgaea. Combat is similar to Neptunia but the story, art style and character creation/customization seems heavily inspired by Disgaea. If you liked either of the series you may like this one too.

Also, if you want to play the game without ruining balance and power up progress early in the game disable the free DLC packs. You can enable the DLCs at any time but I recommend playing through the game once for the normal ending before doing it.

Edit: Adding some comments regarding the censoring in this game since a lot of criticism seem to be pointed at Ghostlight for it. What has been removed is the bathing minigame (essentially one semi-nude CG per shushu form and playable character, just under 20 CGs in total have been removed).

Considering that the US version on the PS3 also had the bathing minigame removed (published by NISA) there wasn't much chance to see it restored in the PC version regardless of who published it. Instead of blaming Ghostlight I'd question the western fear for cartoon nudity in general.... This Nancy Drew game had a great atmosphere and an interesting cast of characters in addition to the storytelling. The paranormal aspect of the game was spooky without being corny and the action started off right away. There was a lot of interesting dialogue and plenty of independent exploring with a lot of new locations and surprises along the way. I really enjoyed Ghost of Thorton Hall and I think it was sufficiently challenging without being overbearing about it. I'll definitely be revisiting this one!. A game truly ahead of its time, Mystery of the Druids will keep you wondering on the mystery of a lost civilization. Suspenseful, dramatic, and full of symbolism, this is a game that will make you think about the real world when you're done, and how to better mankind as a whole. This game changed my life, and I recommend it to anyone who needs a great experience in a video game!. <https://youtu.be/igShnGMswrA>. Won't run on i7 3930K 4.5ghz GTX1080 and 32gb RAM. Tried reinstalling, renaming files, etc. Rubbish.

The game GLADIUS is still Early Access so a lot can change and things can get much better. It's a bit more than most of the gladiatorial combat VR games out there as there are far more options to select for your experience. Chariot races and tigers and monsters of various types are pretty nifty . . . albeit, some are a bit more clunky than others.

As the combat AI improves, it's going to only get better.

<https://www.youtube.com/watch?v=c2LTZgvcD0E>. Like doom but highly autistic. WHAT THE HECK HAPPENED?? This on paper should be the greatest game, but what the heck happened. Nothing to do, you have to pay a random bag in the map to keep the server running? Dumbest concept i have heard yet. Check out my review below!

<https://www.youtube.com/watch?v=pgR1cOdUwj8&list=PLFglnFU930tMOgR76T8vvUt7pc0TEkMrm&index=7>. One of the most inventive Half-Life 2 modifications, it changes the game so much, you won't be able to tell what the main game is (aside from main menu).

Very fun futuristic vehicle brawler.

There's only one problem: not a lot of players.. Very fun game. Great indie game, very addictive, intuitive gui and very well polished.

Nice features like sharing your solutions and checking out others approaches to problem solving.

Surely worth checking out and in very reasonable price!. I updated my previous review since the game doesn't need connect to the provided websites. Even if you get error 404 on browser don't alarm, it is normal.

The game is quite annoying but thanks to the community guides is an easy game.
